Huvashen Gramani

SOFTWARE DEVELOPER

I'm a Software Developer with experience building and maintaining full-stack web applications using Angular, TypeScript, C#, .NET, SQL Server, and REST APIs. Skilled in developing frontend interfaces, integrating APIs, debugging production issues, improving business workflows, and writing clean, maintainable code. Experienced in working with internal enterprise systems, database-driven functionality, reporting features, and agile development practices. Passionate about solving real business problems through scalable and user-focused software solutions.

Education

2017 - 2021

Matric Bachelor's Pass

George Campbell School of Technology

2022-2024

Bachelor of Science: Information Technology

Richfield Graduate Institute of Technology
